The decision also makes minor changes to the RA program and provides policy and procedural guidance for future tracks of the proceeding. The Commission also adopted flexible capacity requirements for 2019 applicable to Commission jurisdictional electric load-serving entities, superseding the previously adopted 2018 requirements.

A workshop was held on 6/26/18 at the California Governor’s Office of Emergency Services in Mather, CA.

A prehearing conference is scheduled for 8/2/18. Parties have been instructed to be prepared to discuss the need for evidentiary hearings. Parties that believe such hearings are necessary have been instructed to file their prehearing conference statements by 7/27/18. Notice.

A prehearing conference was held on 12/5/17. Ruling

On 1/11/18 the Assigned Commissioner and ALJ issued a ruling requesting comments on the creation of a shared statewide database of utility pole and conduit information. Input is requested on (1) whether a proposed listing of data fields is complete; (2) whether any information categories should be treated as confidential; (3) which data fields are most essential to accomplish the safety and goals of the OII and OIR; (4) whether each pole owner should be responsible for maintaining and providing access to its database, or whether a third party facilitator should be responsible for maintaining one global database; and (5) the manner in which the database should be shared. Comments were due by 2/8/18.

On 1/16/18 the ALJ issued a ruling amending the 1/11/18 ruling and attaching the correct listing of proposed data fields.

On 3/22/18 the ALJ issued a proposed decision amending the right of way rules to apply to wireless telecommunications facilities installed by competitive local exchange carriers, comments were due 4/11/18. The decision would amend the right of way rules to provide competitive local exchange carriers with expanded nondiscriminatory access to public utility infrastructure for the purpose of installing antennas and other wireless telecommunications facilities. The Commission is approved the final decision on 4/26/18. This decision closes this aspect of the proceeding; however, the investigation in I17-06-027 with which it was consolidated remains open.
